Wood Stone tools are designed for efficient kitchen operation, and to help you get the most out of your oven. With a few exceptions, most tools feature heavy-duty stainless steel handles and grease-resistant grips—built for years of dependable service.

**A. LOADING PEELS** WS-TL-LP-(S, M, L or XL)

These lightweight aluminum alloy Loading Peels come in five sizes that are perfect for up to 12", 14", 16" and 18" pizzas. A 13" loading peel is available in stainless steel.

**B. NATURAL FIBER BRUSH**

WS-TL-NFB-(S, M, L or XL)

For general sweeping, we offer a Natural Fiber Brush. The short and medium lengths have wood handles (pictured below). The long and extra long lengths have stainless steel handles and replaceable heads.

**C. IN-LINE BRASS-BRISTLED BRUSH**

WS-TL-IFB-(S, M, L or XL)

The heavy-duty In-Line Brush features a 10" wood head, beveled to facilitate debris removal from all corners of the oven. In-Line brush heads are replaceable.

**D. T-STYLE BRASS-BRISTLED BRUSH**

WS-TL-TFB-(S, M, L or XL)

**E. T-STYLE NATURAL FIBER BRUSH**

WS-TL-TNFB-(S, M, L or XL)

The heavy-duty T-Style Brush features a 10" wood head, beveled to facilitate debris removal from all corners of the oven. T-Style brush heads are replaceable.

**F. BUBBLE HOOK** WS-TL-BH-(S, M, L or XL)

The Bubble Hook is for popping pizza dough bubbles before they get out of hand. Made from heavy gauge stainless steel, it is also great for moving pans, trays and even wood.

**G. UTILITY PEEL** WS-TL-UP-(S, M, L or XL)

Move or rotate any size pizza with nearly surgical precision with Wood Stone's Utility Peel. The 8-inch diameter utility peel is also very useful for moving pans, placing wood on the fire and removing ash. Select lengths available in either stainless steel or titanium versions.

**H. PARTICLE SHOVEL** WS-TL-PS-(S, M, L or XL)

Our heavy gauge stainless steel Particle Shovel is designed to safely remove ash and coals from wood-fired ovens and charbroilers. The head and handle are welded to ensure durability. Its front is beveled to remove ash from even hard-to-reach corners.

† 13" Loading Peel is stainless steel. All other peels are aluminum.

†† Short & Medium lengths have wood handles; Long and Extra Long have stainless steel handles and heads are replaceable.

Wood Stone tools shown have heavy-duty stainless handles and grease-resistant grips.

## A. SCRAPER TOOL

The Scraper Tool is useful for scraping the deck floor and removing heavy, baked-on debris and buildup. A stainless steel handle, grease-resistant grip and angled head provide plenty of leverage, even in the rear of the oven.

WS-TL-S-60 Small/Medium Handle, 60"

WS-TL-S-70 Long Handle, 70"

WS-TL-S-80 Extra Long Handle, 80"

## B. PITA PEEL WS-TL-PP-63

The 63" basket-style Pita Peel is designed for scooping up multiple pitas, finishing them in the dome (without overheating) and removing them. No other tool can perform these functions as well. The handle is stainless steel, and the basket is sturdy, lightweight aluminum.

## C. FLOOR TOUCH-UP TOOL WS-TL-TU

The 67" Floor Touch-Up Tool provides a means to smooth minor surface irregularities on the oven deck, especially when a slightly uneven surface has developed due to a crack in the oven deck.

## D. COAL OVEN RAKE

The triangular hoe-style Coal Oven Rake is useful in coal-fired ovens for manipulating coal inside the oven chamber, as well as scraping debris and fly ash through the coal grates and into the ash chute.

Available in two lengths:

WS-TL-CR-M Medium Handle, 63"

WS-TL-CR-XL Extra Long Handle, 84"

## E. TOOL GRIP 3000-0005

Replacement grease-resistant Tool Grip for any stainless steel handled Wood Stone oven tool. Minimum order of two.

### F. DETACHABLE PEEL HANDLE WS-TL-DPH

The 38" stainless steel Detachable Peel Handle has been designed to securely attach and quickly release Detachable Peel Heads (3000-0058). When the peel head is inserted into the catch, the latch automatically locks it in place. Peels are removed by pressing the latch.

### G. DETACHABLE PEEL HEAD 3000-0058

These 18 x 26" wood Detachable Peel Heads with 7" handle (minimum order of 6) have been designed to securely attach and quickly release using the Detachable Peel Handle (WS-TL-DPH, sold separately). Pizzas built on detachable peels are ready for immediate baking or can be pre-staged, ready for the rush!

### H. IN-LINE OR T-STYLE BRASS-BRISTLED BRUSH REPLACEMENT HEAD 3000-0002

Replacement Head for both In-Line and T-Style Brass-Bristled Brushes. By orienting the 10" brush head differently, the same head works for both styles of brush. Minimum order of two.

### I. T-STYLE NATURAL FIBER BRUSH REPLACEMENT HEAD 3000-0060

Replacement Head for the T-Style Natural Fiber Brush. Minimum order of two.

### J. NATURAL FIBER BRUSH REPLACEMENT HEAD 3000-0037

Replacement Head for the Long and Extra Long Natural Fiber Brush. Minimum order of two.

**Note:** Short and Medium lengths are single piece construction, so the head alone is not replaceable.

**A. HIGH-TEMP CERAMIC BAKING SLATE**

The heart of a Wood Stone oven is now available for your conventional rack or convection oven—Baking Slates manufactured from the same ceramic used in the construction of our stone hearth ovens. The slates are cast into standard sheet pans so they are conveniently sized at 18 x 26", weighing 44 lbs (full sheet) and 18 x 13", weighing 18 lbs (half sheet).

In addition to enhancing the crust properties of pizza and bread products, the high-temperature Ceramic Baking Slate will help the oven hold on to valuable heat that is normally lost every time the door is opened.

WS-SLATE-1826 (full sheet)

WS-SLATE-1813 (half sheet)

**B. HAND HELD IR THERMOMETER WS-TL-IRT**

This easy-to-use device allows instant surface temperature measurements anywhere in your Wood Stone oven. Just point the Hand Held IR Thermometer at the surface in question and press the button—the temperature is instantly displayed on an LCD readout. The button can be held down for scanning surfaces. The meter takes a reading every half second and has accuracy of  $\pm 3$  °F and a range of 0–750 °F. It is powered by one 9V battery and is built of high-impact plastic for long life.

**A****B**

### C. SMOKER BOX 000-313

Wood Stone's Smoker Box uses wood chips to give the aroma of a wood-fired oven in a gas-fired oven. Constructed of heavy-duty stainless steel for years of service. The box is 9.5" long x 4.25" wide x 2" deep.

### D. OVEN TOOL HANGER 1650118

Wood Stone's Oven Tool Hanger offers a convenient way to have your tools easily accessible while cooking. The hanger is 2.5" wide x 3.5" deep. Minimum order of two.

### E. LOADING PEEL TOOL HANGER

3000-0054

The Loading Peel Tool Hanger is specifically designed to accommodate all loading peels. The hanger is 4.5" wide x 1.625" deep. Minimum order of two.

### F. DEBRIS MANTEL

000-10-001

Wood Stone's new patent-pending Debris Mantel is designed for easy crumb and debris collection. Keep your burners clear by collecting debris in conveniently removable trays. Slide the trays out for easy emptying and wash them in any standard commercial dishwasher.

**F. HEAT SHIELD**

000-403-(34, 45, 54, 57 or 72)

The high quality, stainless steel Heat Shield, available for all Mt. St. Helens models, serves as a heat guard and backsplash to protect a wall at the rear of the charbroiler, adding 20" to the height of the charbroiler.

**Note:** When the optional Okanogan Single-Spit Rotisserie, which has its own rear shroud, is installed on the Mt. St. Helens Charbroiler, this Heat Shield is not compatible.

### A. STANDARD ANGLE SPIT 000-307

The Standard Angle Spit is included with all Wood Stone rotisseries. Six to seven average-sized birds can be quickly loaded. The perforations are convenient for securing the string or skewers used to bind the legs.

### B. SQUARE SPIT WITH ADJUSTABLE FORKS 000-306

The Square Spit With Adjustable Forks is made of half-inch square stock stainless steel and comes with 5 double forks and two single forks. It is easy to load and the forks hold the birds in place so that no binding of the legs is required. This spit holds from 1 to 6 birds of various sizes and is ideal for larger products like turkeys.

### C. CLAMSHELL BASKET 000-300

The versatile Clamshell Basket spit is constructed of heavy gauge stainless steel and conveniently adjusts to hold a variety of products, ranging from fresh vegetables to two entire prime ribs. Stainless steel screens are also available to help secure smaller items. Includes Chain Assembly For Clamshell Basket locking mechanism.

### D. FISH AND VEGETABLE SCREEN 000-305

The 26 x 16" Fish And Vegetable Screen inserted into the Clamshell Basket compartment expands the versatility of the spit.

### E. RIB/FISH BASKET SPIT

The Rib/Fish Basket Spit is available in a 3-arm, 6 compartment, or in a 4-arm, 8 compartment model. On the 4-arm spit, each compartment is suitable for a full rack of ribs, a sizeable salmon fillet or several smaller cuts of meat. On the 3-arm spit, the size of each compartment makes it ideal for larger items such as tri-tip roasts and pork loins. The laser-cut containment flap is spring-loaded for easy loading and unloading.

## WOOD-FIRED

### A. MINI-LIGNO E WOOD MOISTURE METER WS-TL-MM

Wood Stone's Mini-Ligno E Wood Moisture Meter instantly measures the moisture content of any type of wood, ensuring proper moisture content. Press the probes into the wood surface and the meter quickly displays the moisture percentage on the easy-to-read scale, ranging from 6–36%. An extra (longer) set of probes is included. The meter uses one 9V battery, good for 5,000 readings. The meter and the cap are built of high-impact plastic for years of use. The pocket-sized meter measures only 6 x 3 x 1" and weighs 6 ounces.

### B. FIRE HORSE 000-FIREHORSE

The Wood Stone stainless steel Fire Horse can help make your wood fire more efficient. The Fire Horse props up the logs, elevating them off the floor to allow more air to feed the fire.

## WOOD- OR COAL-FIRED

### C. PARTICLE SHOVEL WS-TL-PS-(S, M, L or XL)

Our heavy gauge stainless steel Particle Shovel is designed to safely remove ash and coals from wood-fired ovens and charbroilers. Its front is beveled to remove ash from even hard-to-reach corners. See page 5 for lengths.

## COAL-FIRED

### D. COAL OVEN RAKE

The triangular hoe-style Coal Oven Rake is useful in coal-fired ovens for manipulating coal inside the oven chamber, as well as scraping debris and fly ash through the coal grates and into the ash chute. Available in two lengths:

WS-TL-CR-M Medium Handle, 63"

WS-TL-CR-XL Extra Long Handle, 84"

### E. ASH CHUTE TOOL WS-TL-ACT-M

### F. COAL GRATES RP-GRATE-CL-SET

Two replacement Coal Grates, sold as a set, for Fire Deck Series coal ovens. Both 15.75" x 7.75" grates must be replaced at the same time.

### G. DOUBLE COMPARTMENT ASH DOLLY WS-TL-AD

The Wood Stone Double Compartment Ash Dolly is an efficient and safe means to store and transport the ash that needs to be removed from the oven each morning. It has two compartment sleeves for ash storage. After the first sleeve has been filled, the second sleeve should be filled. By the time the second sleeve has been filled, the first will have had time to cool and should be safe to dump. By separating the ash into two compartments, it is easier to control the disposal of leftover ash in a safe manner.

Caution is necessary to prevent any live coals mixed in with the ash from being dumped into an area or container with combustibles. Retain ashes in the closed container until all the cinders have thoroughly cooled. Ashes can then be disposed of safely.

The unit comes with a lock eye and a brass security lock with two keys. The unit is made of 16-gauge stainless steel with a non-marking perimeter bumper edge. It has four non-marking, fully revolving low profile casters.

### H. WOOD HANDLING CART WS-TL-WHC

Wood Stone's stainless steel Wood Handling Cart is designed to address the day-to-day issue of transporting fuel from the main wood storage area to the solid fuel appliance. The 6.5-cubic-foot capacity cart is constructed from 14-gauge stainless steel. The cart is designed to hold 18-inch logs and to contain the accompanying bark chips and sawdust. It rolls easily over thresholds and carpeting on durable, 3 x 7/8", fully revolving, non-marking casters. This piece is built for a lifetime of reliable use.

## Horseshoe Scraper Replacement Blade

Replacement blade for the Horseshoe Scraper

## Horseshoe Scraper

Removes charred food residue and grease from flat tops/griddles. Ergonomically designed construction for left or right-hand use. Constructed of heavy-duty cast aluminum and comes with a sharp stainless steel blade for long-lasting service. Features a long handle to keep operator's hands away from the hot surface. Easy blade replacement using hand screws 33" handle allows for added reach to make cleaning the entire flat top quick, easy and safe.

### DIRECTIONS FOR USE

1. Be sure not to scrape or chisel the flat top griddle when using the scraper. The scraper should be used in a shaving motion to remove excess residue from the griddle.
2. Do not lean or use excessive force when using the scraper. This could cause damage to the scraper, blade or griddle surface.
3. It is not necessary to remove all the residue from the griddle with the initial cleaning pass. Remove excess residue, then add water to flat top to create steam and shave the remaining residue into the grease trough.

## Hand Held IR Thermometer

## Coal-Fired Ovens

### Coal-Fired Ovens

In 1905, New York City opened its first restaurant to feature a stone hearth oven — the restaurant was *Lombardi's*, and the oven was heated by coal. Engineered with Wood Stone's sophisticated materials, the Coal-Fired Fire Deck provides a unique connection to American history, while keeping up with the production demands of a modern commercial kitchen. With forced-air combustion and a radiant gas flame opposite the coal fire, the Fire Deck has been designed to achieve an excellent balance of top and bottom heat. An underfloor infrared burner assists in maintaining floor temperature and speeding heat-up. A large wide doorway provides spectacular views of the coal fire raging in the chamber, and allows easy access by the operator.
